## GERRARD BUILDERS

—  
Gerrard Builders and Carolina Design Associates made this space shine. This masterfully executed living room in one of Gerrard Builders' recent Charlotte builds features white oak walls and ceiling, while concealed cabinetry surrounds this soapstone fireplace. A modern light fixture adds some fun to this living room.

LUCY AND COMPANY

—  
With this home project, Beth Keim made a space for dining and connecting in style. The chairs are Lee Furniture, the rug is Stark, and the custom floating shelf is by local Charlottean Jacob Wolfe. For pretty touches, the wallpaper comes from Thibaut and the floral display is from Nectar.

ARCADIA HOMES

—  
The talented folks at Arcadia Homes showcase this stunning entryway designed by Lynn Blackwell Design, with a front door by The Looking Glass and tile by Tile Collection. The large, open, airy space exudes the attention-to-detail that all Arcadia Homes builds abide by.
